

A Sankey diagram illustrating transitions between three states: Disagree, Neutral, and Agree. The diagram is divided into three horizontal sections. The top section, labeled 'Before: Disagree' on the left and 'After: Disagree' on the right, is bounded by red vertical bars. The middle section, labeled 'Before: Neutral' on the left and 'After: Neutral' on the right, is bounded by gray vertical bars. The bottom section, labeled 'Before: Agree' on the left and 'After: Agree' on the right, is bounded by blue vertical bars. Flow lines connect the 'Before' states to the 'After' states: a line from 'Before: Disagree' to 'After: Disagree', a line from 'Before: Disagree' to 'After: Neutral', a line from 'Before: Neutral' to 'After: Disagree', a line from 'Before: Neutral' to 'After: Neutral', and a line from 'Before: Agree' to 'After: Agree'. The flows from 'Before: Disagree' to 'After: Disagree' and from 'Before: Neutral' to 'After: Disagree' are the most prominent.

Before: Disagree

After: Disagree

Before: Neutral

After: Neutral

Before: Agree

After: Agree
